

Playwright Execution Report

SauceDemo checkout automation - execution 2026-09-15_23-18-31 - generated 15/9/2026, 11:22:59 pm

DOCUMENTED TEST CASES 20	AUTOMATED SCENARIOS 30	BROWSER EXECUTIONS 90	PASSED 90	FAILED 0	DURATION 16m 21s
---------------------------------------	-------------------------------------	------------------------------------	---------------------	--------------------	--------------------------------

Execution Start Time	2026-09-15T17:48:31.356Z	Execution End Time	2026-09-15T17:52:59.118Z
Total Execution Duration	4m 28s	Execution Identifier	2026-09-15_23-18-31

Execution Summary Chart

Pass rate: 100%

Browser-wise Results

Browser	Total	Passed	Failed	Skipped	Pass Rate
chromium	30	30	0	0	100%
firefox	30	30	0	0	100%
webkit	30	30	0	0	100%

Defect Summary

Defect	Test Case	Browser	Status	Failure Detail
No defects were detected in this execution.				

Coverage Summary

AC	Area	Test Cases	Executed	Status
AC1	Cart Review	TC-003, TC-004, TC-006, TC-012, TC-014	0/5	Not executed

AC	Area	Test Cases	Executed	Status
AC2	Checkout Information Entry	TC-001, TC-005, TC-006, TC-007, TC-008, TC-009, TC-016, TC-020	0/8	Not executed
AC3	Order Overview	TC-006, TC-011, TC-013, TC-017, TC-019	0/5	Not executed
AC4	Order Completion	TC-006, TC-015, TC-018	0/3	Not executed
AC5	Error Handling	TC-002, TC-007, TC-008, TC-009, TC-010	0/5	Not executed

Unmapped Automated Scenarios

Scenario	File	Browsers
TC-30 BR1 — all three checkout information fields are individually mandatory (combined verification)	saucedemo-checkout\business-rules.spec.js	chromium, firefox, webkit
TC-01 Happy path — cart displays single item with full details	saucedemo-checkout\cart-review.spec.js	chromium, firefox, webkit
TC-02 Happy path — cart displays multiple items with correct per-item quantities	saucedemo-checkout\cart-review.spec.js	chromium, firefox, webkit
TC-03 Discrepancy check — cart page does not display a total price (FR-02 gap)	saucedemo-checkout\cart-review.spec.js	chromium, firefox, webkit
TC-04 'Continue Shopping' returns to Products page and preserves cart contents	saucedemo-checkout\cart-review.spec.js	chromium, firefox, webkit
TC-05 'Checkout' button navigates to the checkout information page when the cart has items	saucedemo-checkout\cart-review.spec.js	chromium, firefox, webkit
TC-06 Edge case — Checkout button is clickable with an empty cart (BR3 not enforced)	saucedemo-checkout\cart-review.spec.js	chromium, firefox, webkit
TC-07 Removing an item from the cart updates the badge and cart contents	saucedemo-checkout\cart-review.spec.js	chromium, firefox, webkit
TC-08 Happy path — valid checkout information proceeds to Overview	saucedemo-checkout\checkout-info-validation.spec.js	chromium, firefox, webkit
TC-09 Validation — empty First Name shows field-specific required error	saucedemo-checkout\checkout-info-validation.spec.js	chromium, firefox, webkit
TC-10 Validation — empty Last Name (First Name filled) shows field-specific required error	saucedemo-checkout\checkout-info-validation.spec.js	chromium, firefox, webkit
TC-11 Validation — empty Postal Code (First & Last filled) shows field-specific required error	saucedemo-checkout\checkout-info-validation.spec.js	chromium, firefox, webkit
TC-12 Edge case (EDGE-01) — submitting with all three fields empty only surfaces the first field's error	saucedemo-checkout\checkout-info-validation.spec.js	chromium, firefox, webkit
TC-13 Discrepancy check (EDGE-02) — whitespace-only values bypass required-field validation	saucedemo-checkout\checkout-info-validation.spec.js	chromium, firefox, webkit
TC-14 Discrepancy check (AC5/FR-11) — special characters are accepted without validation error	saucedemo-checkout\checkout-info-validation.spec.js	chromium, firefox, webkit
TC-15 Boundary — very long input in First Name field is accepted without truncation error	saucedemo-checkout\checkout-info-validation.spec.js	chromium, firefox, webkit
TC-16 Edge case (EDGE-03) — non-numeric/alphanumeric Zip/Postal Code is accepted	saucedemo-checkout\checkout-info-validation.spec.js	chromium, firefox, webkit
TC-17 BR5 on checkout information page — Cancel returns user to the Cart page	saucedemo-checkout\checkout-info-validation.spec.js	chromium, firefox, webkit

Scenario	File	Browsers
TC-18 Error banner can be dismissed via its close (X) control	saucedemo-checkout\checkout-info-validation.spec.js	chromium, firefox, webkit
TC-19 BR2 — direct URL navigation to the checkout information page while logged out redirects to Login	saucedemo-checkout\checkout-info-validation.spec.js	chromium, firefox, webkit
TC-27 Edge case (EDGE-04) — direct URL navigation to checkout information page with an empty cart while logged in	saucedemo-checkout\navigation.spec.js	chromium, firefox, webkit
TC-28 Edge case (EDGE-05, Technical Notes) — browser Back button from Overview clears entered checkout info but preserves cart	saucedemo-checkout\navigation.spec.js	chromium, firefox, webkit
TC-24 Happy path — confirmation page shows success message and Back Home button	saucedemo-checkout\order-completion.spec.js	chromium, firefox, webkit
TC-25 'Back Home' button returns the user to the Products page	saucedemo-checkout\order-completion.spec.js	chromium, firefox, webkit
TC-26 BR4 — cart is cleared after order confirmation	saucedemo-checkout\order-completion.spec.js	chromium, firefox, webkit
TC-20 Happy path — Overview page shows item summary, payment info, and shipping info	saucedemo-checkout\order-overview.spec.js	chromium, firefox, webkit
TC-21 Happy path — Overview page calculates item total, tax, and grand total correctly for a multi-item cart	saucedemo-checkout\order-overview.spec.js	chromium, firefox, webkit
TC-22 Discrepancy check (BR5) — Cancel on the Overview page redirects to Products, not Cart	saucedemo-checkout\order-overview.spec.js	chromium, firefox, webkit
TC-23 Happy path — Finish button on the Overview page completes the order	saucedemo-checkout\order-overview.spec.js	chromium, firefox, webkit
TC-29 Full end-to-end happy-path regression: Cart -> Checkout Info -> Overview -> Confirmation (AC1 through AC4 chained)	saucedemo-checkout\smoke.spec.js	chromium, firefox, webkit

Test Results

TC ID	Test	Browser	Status	Duration
Unmapped	TC-30 BR1 — all three checkout information fields are individually mandatory (combined verification)	chromium	Passed	4s
Unmapped	TC-01 Happy path — cart displays single item with full details	chromium	Passed	2s
Unmapped	TC-02 Happy path — cart displays multiple items with correct per-item quantities	chromium	Passed	3s
Unmapped	TC-03 Discrepancy check — cart page does not display a total price (FR-02 gap)	chromium	Passed	2s
Unmapped	TC-04 'Continue Shopping' returns to Products page and preserves cart contents	chromium	Passed	3s
Unmapped	TC-05 'Checkout' button navigates to the checkout information page when the cart has items	chromium	Passed	2s
Unmapped	TC-06 Edge case — Checkout button is clickable with an empty cart (BR3 not enforced)	chromium	Passed	4s
Unmapped	TC-07 Removing an item from the cart updates the badge and cart contents	chromium	Passed	3s
Unmapped	TC-08 Happy path — valid checkout information proceeds to Overview	chromium	Passed	3s
Unmapped	TC-09 Validation — empty First Name shows field-specific required error	chromium	Passed	2s

TC ID	Test	Browser	Status	Duration
Unmapped	TC-10 Validation — empty Last Name (First Name filled) shows field-specific required error	chromium	Passed	2s
Unmapped	TC-11 Validation — empty Postal Code (First & Last filled) shows field-specific required error	chromium	Passed	2s
Unmapped	TC-12 Edge case (EDGE-01) — submitting with all three fields empty only surfaces the first field's error	chromium	Passed	2s
Unmapped	TC-13 Discrepancy check (EDGE-02) — whitespace-only values bypass required-field validation	chromium	Passed	4s
Unmapped	TC-14 Discrepancy check (AC5/FR-11) — special characters are accepted without validation error	chromium	Passed	3s
Unmapped	TC-15 Boundary — very long input in First Name field is accepted without truncation error	chromium	Passed	3s
Unmapped	TC-16 Edge case (EDGE-03) — non-numeric/alphanumeric Zip/Postal Code is accepted	chromium	Passed	3s
Unmapped	TC-17 BR5 on checkout information page — Cancel returns user to the Cart page	chromium	Passed	3s
Unmapped	TC-18 Error banner can be dismissed via its close (X) control	chromium	Passed	3s
Unmapped	TC-19 BR2 — direct URL navigation to the checkout information page while logged out redirects to Login	chromium	Passed	2s
Unmapped	TC-27 Edge case (EDGE-04) — direct URL navigation to checkout information page with an empty cart while logged in	chromium	Passed	4s
Unmapped	TC-28 Edge case (EDGE-05, Technical Notes) — browser Back button from Overview clears entered checkout info but preserves cart	chromium	Passed	3s
Unmapped	TC-24 Happy path — confirmation page shows success message and Back Home button	chromium	Passed	3s
Unmapped	TC-25 'Back Home' button returns the user to the Products page	chromium	Passed	3s
Unmapped	TC-26 BR4 — cart is cleared after order confirmation	chromium	Passed	3s
Unmapped	TC-20 Happy path — Overview page shows item summary, payment info, and shipping info	chromium	Passed	4s
Unmapped	TC-21 Happy path — Overview page calculates item total, tax, and grand total correctly for a multi-item cart	chromium	Passed	3s
Unmapped	TC-22 Discrepancy check (BR5) — Cancel on the Overview page redirects to Products, not Cart	chromium	Passed	4s
Unmapped	TC-23 Happy path — Finish button on the Overview page completes the order	chromium	Passed	3s
Unmapped	TC-29 Full end-to-end happy-path regression: Cart -> Checkout Info -> Overview -> Confirmation (AC1 through AC4 chained)	chromium	Passed	3s
Unmapped	TC-30 BR1 — all three checkout information fields are individually mandatory (combined verification)	firefox	Passed	14s
Unmapped	TC-01 Happy path — cart displays single item with full details	firefox	Passed	22s
Unmapped	TC-02 Happy path — cart displays multiple items with correct per-item quantities	firefox	Passed	15s
Unmapped	TC-03 Discrepancy check — cart page does not display a total price (FR-02 gap)	firefox	Passed	25s
Unmapped	TC-04 'Continue Shopping' returns to Products page and preserves cart contents	firefox	Passed	13s

TC ID	Test	Browser	Status	Duration
Unmapped	TC-05 'Checkout' button navigates to the checkout information page when the cart has items	firefox	Passed	11s
Unmapped	TC-06 Edge case — Checkout button is clickable with an empty cart (BR3 not enforced)	firefox	Passed	13s
Unmapped	TC-07 Removing an item from the cart updates the badge and cart contents	firefox	Passed	9s
Unmapped	TC-08 Happy path — valid checkout information proceeds to Overview	firefox	Passed	11s
Unmapped	TC-09 Validation — empty First Name shows field-specific required error	firefox	Passed	11s
Unmapped	TC-10 Validation — empty Last Name (First Name filled) shows field-specific required error	firefox	Passed	17s
Unmapped	TC-11 Validation — empty Postal Code (First & Last filled) shows field-specific required error	firefox	Passed	17s
Unmapped	TC-12 Edge case (EDGE-01) — submitting with all three fields empty only surfaces the first field's error	firefox	Passed	14s
Unmapped	TC-13 Discrepancy check (EDGE-02) — whitespace-only values bypass required-field validation	firefox	Passed	14s
Unmapped	TC-14 Discrepancy check (AC5/FR-11) — special characters are accepted without validation error	firefox	Passed	8s
Unmapped	TC-15 Boundary — very long input in First Name field is accepted without truncation error	firefox	Passed	8s
Unmapped	TC-16 Edge case (EDGE-03) — non-numeric/alphanumeric Zip/Postal Code is accepted	firefox	Passed	8s
Unmapped	TC-17 BR5 on checkout information page — Cancel returns user to the Cart page	firefox	Passed	9s
Unmapped	TC-18 Error banner can be dismissed via its close (X) control	firefox	Passed	9s
Unmapped	TC-19 BR2 — direct URL navigation to the checkout information page while logged out redirects to Login	firefox	Passed	10s
Unmapped	TC-27 Edge case (EDGE-04) — direct URL navigation to checkout information page with an empty cart while logged in	firefox	Passed	19s
Unmapped	TC-28 Edge case (EDGE-05, Technical Notes) — browser Back button from Overview clears entered checkout info but preserves cart	firefox	Passed	8s
Unmapped	TC-24 Happy path — confirmation page shows success message and Back Home button	firefox	Passed	9s
Unmapped	TC-25 'Back Home' button returns the user to the Products page	firefox	Passed	9s
Unmapped	TC-26 BR4 — cart is cleared after order confirmation	firefox	Passed	9s
Unmapped	TC-20 Happy path — Overview page shows item summary, payment info, and shipping info	firefox	Passed	10s
Unmapped	TC-21 Happy path — Overview page calculates item total, tax, and grand total correctly for a multi-item cart	firefox	Passed	11s
Unmapped	TC-22 Discrepancy check (BR5) — Cancel on the Overview page redirects to Products, not Cart	firefox	Passed	10s
Unmapped	TC-23 Happy path — Finish button on the Overview page completes the order	firefox	Passed	9s
Unmapped	TC-29 Full end-to-end happy-path regression: Cart -> Checkout Info -> Overview -> Confirmation (AC1 through AC4 chained)	firefox	Passed	8s
Unmapped	TC-30 BR1 — all three checkout information fields are individually mandatory (combined verification)	webkit	Passed	17s

TC ID	Test	Browser	Status	Duration
Unmapped	TC-01 Happy path — cart displays single item with full details	webkit	Passed	23s
Unmapped	TC-02 Happy path — cart displays multiple items with correct per-item quantities	webkit	Passed	11s
Unmapped	TC-03 Discrepancy check — cart page does not display a total price (FR-02 gap)	webkit	Passed	11s
Unmapped	TC-04 'Continue Shopping' returns to Products page and preserves cart contents	webkit	Passed	15s
Unmapped	TC-05 'Checkout' button navigates to the checkout information page when the cart has items	webkit	Passed	13s
Unmapped	TC-06 Edge case — Checkout button is clickable with an empty cart (BR3 not enforced)	webkit	Passed	13s
Unmapped	TC-07 Removing an item from the cart updates the badge and cart contents	webkit	Passed	17s
Unmapped	TC-08 Happy path — valid checkout information proceeds to Overview	webkit	Passed	20s
Unmapped	TC-09 Validation — empty First Name shows field-specific required error	webkit	Passed	15s
Unmapped	TC-10 Validation — empty Last Name (First Name filled) shows field-specific required error	webkit	Passed	18s
Unmapped	TC-11 Validation — empty Postal Code (First & Last filled) shows field-specific required error	webkit	Passed	16s
Unmapped	TC-12 Edge case (EDGE-01) — submitting with all three fields empty only surfaces the first field's error	webkit	Passed	17s
Unmapped	TC-13 Discrepancy check (EDGE-02) — whitespace-only values bypass required-field validation	webkit	Passed	18s
Unmapped	TC-14 Discrepancy check (AC5/FR-11) — special characters are accepted without validation error	webkit	Passed	21s
Unmapped	TC-15 Boundary — very long input in First Name field is accepted without truncation error	webkit	Passed	18s
Unmapped	TC-16 Edge case (EDGE-03) — non-numeric/alphanumeric Zip/Postal Code is accepted	webkit	Passed	17s
Unmapped	TC-17 BR5 on checkout information page — Cancel returns user to the Cart page	webkit	Passed	18s
Unmapped	TC-18 Error banner can be dismissed via its close (X) control	webkit	Passed	20s
Unmapped	TC-19 BR2 — direct URL navigation to the checkout information page while logged out redirects to Login	webkit	Passed	18s
Unmapped	TC-27 Edge case (EDGE-04) — direct URL navigation to checkout information page with an empty cart while logged in	webkit	Passed	12s
Unmapped	TC-28 Edge case (EDGE-05, Technical Notes) — browser Back button from Overview clears entered checkout info but preserves cart	webkit	Passed	24s
Unmapped	TC-24 Happy path — confirmation page shows success message and Back Home button	webkit	Passed	23s
Unmapped	TC-25 'Back Home' button returns the user to the Products page	webkit	Passed	24s
Unmapped	TC-26 BR4 — cart is cleared after order confirmation	webkit	Passed	24s
Unmapped	TC-20 Happy path — Overview page shows item summary, payment info, and shipping info	webkit	Passed	22s
Unmapped	TC-21 Happy path — Overview page calculates item total, tax, and grand total correctly for a multi-item cart	webkit	Passed	18s

TC ID	Test	Browser	Status	Duration
Unmapped	TC-22 Discrepancy check (BR5) — Cancel on the Overview page redirects to Products, not Cart	webkit	Passed	18s
Unmapped	TC-23 Happy path — Finish button on the Overview page completes the order	webkit	Passed	18s
Unmapped	TC-29 Full end-to-end happy-path regression: Cart -> Checkout Info -> Overview -> Confirmation (AC1 through AC4 chained)	webkit	Passed	17s

Recommendations

- Close coverage gaps for acceptance criteria marked At risk or Not executed.
- Run the suite in CI on every checkout-related change and archive test-results as build artifacts.

Artifacts source: C:\PlaywrightDemo2.0\test-results
