DISCREPANCY: Checking out with an empty cart is not blocked and can be completed with a \$0.00 total	saucedemo-checkout\business-rules.spec.js	chromium, firefox, webkit
Logged-in session persists across checkout steps for a valid multi-step flow	saucedemo-checkout\business-rules.spec.js	chromium, firefox, webkit
Attempting to check out again immediately after order completion (empty cart) reproduces the same empty-cart defect	saucedemo-checkout\business-rules.spec.js	chromium, firefox, webkit
Cart page displays full item details for each product	saucedemo-checkout\cart-review.spec.js	chromium, firefox, webkit
Cart page offers Continue Shopping and Checkout options	saucedemo-checkout\cart-review.spec.js	chromium, firefox, webkit
DISCREPANCY: Cart page does not display a total/subtotal price	saucedemo-checkout\cart-review.spec.js	chromium, firefox, webkit
Submitting an entirely empty form shows First Name required error first	saucedemo-checkout\checkout-info-validation.spec.js	chromium, firefox, webkit
Leaving only Last Name empty shows Last Name required error	saucedemo-checkout\checkout-info-validation.spec.js	chromium, firefox, webkit
Leaving only Zip/Postal Code empty shows Postal Code required error	saucedemo-checkout\checkout-info-validation.spec.js	chromium, firefox, webkit
Valid First Name, Last Name, and Zip proceed to Overview page	saucedemo-checkout\checkout-info-validation.spec.js	chromium, firefox, webkit
Error alert can be dismissed via its close control	saucedemo-checkout\checkout-info-validation.spec.js	chromium, firefox, webkit
DISCREPANCY: Special characters in Zip/Postal Code are accepted without a format validation error	saucedemo-checkout\checkout-info-validation.spec.js	chromium, firefox, webkit
DISCREPANCY: Whitespace-only First Name is accepted as valid	saucedemo-checkout\checkout-info-validation.spec.js	chromium, firefox, webkit
DISCREPANCY: Oversized name input and special-character Last Name are both accepted	saucedemo-checkout\checkout-info-validation.spec.js	chromium, firefox, webkit
Numeric 5-digit Zip/Postal Code is accepted (happy-path boundary)	saucedemo-checkout\checkout-info-validation.spec.js	chromium, firefox, webkit
Cancel from Checkout Information page returns to Cart page with items preserved	saucedemo-checkout\navigation.spec.js	chromium, firefox, webkit

Scenario	File	Browsers
DISCREPANCY: Cancel from Checkout Overview page returns to Products page, not the Cart page	saucedemo-checkout\navigation.spec.js	chromium, firefox, webkit
Browser back button after order confirmation shows a stale Overview page whose Finish button is still clickable	saucedemo-checkout\navigation.spec.js	chromium, firefox, webkit
Full checkout flow renders and completes at a mobile viewport (375x667)	saucedemo-checkout\non-functional-exploratory.spec.js	chromium, firefox, webkit
All checkout-flow validation and success messages are captured for content review	saucedemo-checkout\non-functional-exploratory.spec.js	chromium, firefox, webkit
Finish redirects to confirmation page with success message	saucedemo-checkout\order-completion.spec.js	chromium, firefox, webkit

Recommendations

- Close coverage gaps for acceptance criteria marked At risk or Not executed.
- Run the suite in CI on every checkout-related change and archive test-results as build artifacts.
